

DYNAMITE IS USED
AGAINST TROOPS.DETERMINED EFFORT TO BLOW
UP PULLMAN.

Chicago Strike Spreading Very Slowly
Butchers and House Painters Were
the Only Ones That Went Out This
Morning—Sleeping Car Magnate
Hung in Effigy on State St.

CHICAGO, July 12.—Another plot was discovered this morning to blow up the Hotel Florence, the military's headquarters in Pullman. Dynamite belonging to the Pullman company, which was stored in an arcade was the point of attack for the strikers. It was removed by the military.

George M. Pullman was hung in effigy at Fifteenth and State streets at 11 o'clock this morning, by a mob which was dispersed by the police. Their point of gathering is almost in the heart of the business district.

A mob of several hundred men are reported to be interfering with oil trains on the Chicago & Calumet Terminal in East Chicago. There are no troops there. Mayor Hopkins is giving fair protection to the roads.

Thirty-five hundred union painters struck this morning. The expert butchers in all the big packing houses went out this morning. The packing houses attempted to fill their places with little effect so far. It is feared the butchers will give trouble. They attacked non-union men who took places in the Morris packing house this morning and police and militia drove them away. The district is well protected with troops.

President Samuel Gompers and other leaders of the American Federation of Labor are in session here today discussing means to assist in the strike. There is absolutely no doubt about the sincere sympathy of all union men for the American Railway Union, but conservative labor leaders are very carefully considering the situation before deciding to order all their men to quit work in a case where they have no grievances with their employers. Most of the chief union men claim that the strike will be general before the week is over in case the boycott difficulties are not settled, but they are equally frank to admit that there is not a general tie-up today.

Some of the unions have already decided to strike. The officers of some of the organizations say their men are already out, while others are still awaiting the action that may be taken by the men they represent. When the vote was taken at the conference on Sunday night it was generally predicted that more than 100,000 men would quit work this morning. From all that could be learned of the situation it is doubtful whether half that number failed to go to work this morning.

Master Workman Lindholm of the local Knights of Labor estimated the addition to the strikers from the ranks of the allied trades at 50,000. He was, however, firmly of the opinion that the men would continue to go out until the tie-up became general. Of the 30,000 Knights in the city Mr. Lindholm was inclined to think that 15,000 were on a strike today.

THERE IS LAW ON BOTH SIDES.

Federal Jury May Investigate the Railway Managers—Justice Done to All.

CHICAGO, July 12.—According to Judge Grosscup and District Attorney Mitchell, justice is to be meted out impartially to all violators of the federal statutes, be they railroad presidents or railroad brakemen. When the federal grand jury concludes its investigation of the American Railway Union it will begin an inquiry into the policy and methods of the General Managers' Association. Among the leaders of the workingmen the charge has been made openly and repeatedly that the obstruction of United States mails and the interruption of interstate commerce were due quite as much to the general managers as to the railway union. It has been alleged that the general managers agreed among themselves that no trains should be run on any of the roads until all had gained their points in the dispute with the men. This was done, it is charged, to hold back such companies as showed an inclination to treat with their employees and bring about a resumption of traffic on their lines. It is asserted by the men that they can prove that telegrams were sent out from the General Managers' association ordering certain railroad lines to send out no trains till a designated scheme had been accomplished. All this, the men insist, is as clear a case of conspiracy on the part of the general managers as the acts of Debs and his associates and rendered them indictable for conspiracy.

The Railway union people have been making these charges for some time. They have declared that the special federal grand jury was called not to investigate into violations of the law, but to indict the labor leaders at the behest of the capitalists. Judge Grosscup does not like such imputations against his court. He does not wish to have the impression spread that his court is merely an annex to the General Managers' association or a department of Pullman's monopoly.

WASHINGTON, July 12.—Attorney-General Olney, after reading the account of the seizure of Debs' private

papers, expressed his regrets at the action of the government officials, and at once sent a telegram directing the papers to be returned to him. It is assumed that it was in obedience to this telegram that action was taken under which the papers were surrendered and the act of seizing them disavowed.

WHITING UNDER MARTIAL LAW

Regulars Swoop Down on the Town and are Relieved By Militia.

WHITING, Ind., July 12.—At 4:30 o'clock yesterday afternoon a company of United States regulars from Fort Sheridan placed Whiting under martial law, and until 6 the people were in a state of terror. Nearly twenty men were arrested, but most of them were released. Tom McGee, James McFadden and another man were taken to Chicago. The cause of the disturbance was the assault on J. N. Flanely, the brakeman on Lake Shore suburban train No. 81. The train is due in Chicago at 3 p. m. and was making the turn at the end of the line. Flanely went ahead to throw the switch, when a crowd of rioters appeared and, knocking him down, nearly kicked him to death before assistance could arrive. Conductor Clark was also assaulted. Flanely was taken to Chicago. Capt. Conrad with a company of Fort Sheridan regulars came to Whiting at 4:30 o'clock. Without a moment's warning the town was placed under the discipline of a military camp. Soldiers and United States marshals patrolled the streets making arrests.

At 6 o'clock two companies of Indiana militia arrived from Hammond; Company F, Third Indiana, from Rochester, Capt. Kunston; and Company B, Second Indiana, from South Bend, Capt. Skinner. As the militia arrived the regulars departed and the Indiana boys went into camp. At 10 o'clock at night the regulars again returned, but it is not definitely known what their next action will be. When they arrived they marched through the streets of the town, searching all the saloons as far as they went for the men who assaulted Flanely. They are now encamped near the Lake Shore depot.

HAMMOND PEOPLE WANT REVENGE.

Have Issued Warrants for the Regular Soldiers.

HAMMOND, Ind., July 12.—Mayor Reilly and all his subjects still believe President Cleveland and Secretary Gresham are guilty in the eyes of the law of murder as accessories before the fact, and there is scarcely a man, woman or child in all this town but would rejoice to see both Mr. Cleveland and Mr. Gresham behind the bars of the little bastille attached to the city hall. For a time the mayor and many of the leading citizens seriously considered issuing warrants for the President and secretary of state.

As to Capt. Hartz and the regulars of Company D, who fired into the mob Sunday, a blanket warrant has been issued for them, charging them with murder, and it is now in the hands of Constable August Tabbat. But whether Tabbat will ever undertake to serve the warrant is a matter yet to be decided. When the Chicago papers arrived yesterday and the full particulars regarding the arrest of Debs and his cabinet were learned the matter of swearing out a warrant for President Cleveland and Secretary Gresham again came up for discussion. The officers of the government and the government courts were denounced as subject to the call of the corporations and that the poor man had no chance to obtain justice from either.

Pilot Nicholas Kahl and crew of the tug Kittie were fired on by the militia at Blue Island. The shooting was wild and no one was injured. Two companies of regulars have been sent from Chicago to reinforce the militia. It is said the strikers are determined and well armed. Yesterday they captured a tank cannon from the Standard oil works, which is used for firing oil stills, and it now stands ready for action. Besides this numerous rifles and revolvers and 5,000 rounds of ammunition have been procured.

RIOTERS PUT IN JAIL.

Deputies at Ladd, Ill., Make Twenty-two Arrests.

LADD, Ill., July 12.—Ten men with goods from the looted stores in their possession were arrested here yesterday and bound over to the grand jury in bonds of \$1,000 each. No security was furnished and the men at daylight were taken to the county jail at Princeton. Late last night Loceyville sent a call for aid to all the surrounding towns. Scouts from that city report a mob of 500 rioters as being within a short distance of that place. Eighty deputies from the west side of the county were ordered out for their relief. At Seatonville the situation was quiet all day. It is guarded by thirty-eight deputies from Princeton, eighteen from Wyand, and twenty-two from Sheffield. At Princeton and the west half of the county the excitement was on the increase all day. As it is currently believed an effort to rescue the prisoners is to be made the home guard has been strengthened. The board of supervisors has purchased 200 repeating rifles and 10,000 rounds, which have been received in the city.

NO ACTION TAKEN YET.

Sovereign's Strike Order Not Heeded by the Knights.

New York, July 12.—Sovereign's strike order has had no effect here as

yet. In this city, it is claimed by the employers the Knights of Labor is almost extinct as an independent order, and for that reason alone Sovereign's appeal will accomplish nothing.

There does not seem to be any immediate probability of a sympathetic strike in Brooklyn. District assembly 75, K. of L., held its regular meeting yesterday, but took no definite action. BUFFALO, N. Y., July 12.—The Knights of Labor thus far show no disposition to go out in response to Grand Master Workman Sovereign's address. Said the master workman of the district assembly: "If we strike at all it will not be before the end of the week."

ROCHESTER, N. Y., July 12.—It is thought Sovereign's appeal will meet with no response in Rochester.

WATERTOWN, N. Y., July 12.—The appeal of General Master Workman Sovereign to all Knights of Labor to strike has had no effect here.

ALBANY, N. Y., July 12.—Grand Master Workman Sovereign's order has had no effect in this city. Troy or Schenectady. No meetings have been called by the workingmen.

JERSEY CITY, N. J., July 12.—There is no disposition here among railroad men or others to heed the recommendations in Sovereign's address.

FIREMEN TO GO OUT IN A BODY.

The Brotherhood at Cincinnati Orders a Strike on the Big Four.

CINCINNATI, Ohio, July 12.—Every fireman on the nine divisions of the Big Four road was ordered out yesterday by Chairman G. B. Odell of the brotherhood committee, acting on authority conferred by Chief Sargent. Several unions yesterday passed resolutions of sympathy with the strikers. The local organization of the American Federation has taken a decided stand against ordering a strike before the official investigation and report of President Gompers and the executive council. All the labor unions of the city are in sympathy with the strike and there is no doubt as to their action if Gompers calls upon them.

MEMPHIS, Tenn., July 12.—Acting upon advice from Debs the railroad employes at Little Rock, Ark., strike again today. INDIANAPOLIS, Ind., July 12.—United States Marshal Hawkins said last night that for the first time since the strike began there was not a train in Indiana that required any assistance from the federal deputies. Deputies were sent to Peru and Andrews yesterday.

WILL NOT ACCEPT REDUCTIONS.

Miners in the Western Illinois Field Decide Not to Go Back to Work.

BRAIDWOOD, Ill., July 12.—All the foreign-speaking miners living in this field have decided to remain out and make a stand against the reduction in price of mining. They also decided to remain quietly at their homes and refrain from any unlawful or boisterous gatherings in the future. SPRINGFIELD, Ill., July 12.—A delegate convention of miners representing every mine in the Springfield sub-district, twenty three in number, was held yesterday and district organization effected. Resolutions were adopted that miners should demand 65 cents a ton, gross weight, and that gross weight scales must be used at all mines.

LA SALLE, Ill., July 12.—At a mass meeting here and attended by 1,500 miners it was decided to attend the funeral of the Italian killed by United States troops at Spring Valley. They started for there, ostensibly for that purpose. Fears for the outcome are entertained.

WABASH ROAD MOVES ITS TRAINS.

Succeeds in Getting a Number In and Out of Decatur Without Trouble.

DECATUR, Ill., July 12.—Yesterday the Wabash moved all its passenger and local freight trains and got four through freights out of the yards. There is no trouble.

PEORIA, Ill., July 12.—A good many of the firemen and engineers have returned to work and it is said the rest of them will follow suit.

KANKAKEE, Ill., July 12.—The Illinois Central resumed its local freight service between Gilman and Matteson yesterday. The Central and Big Four are both moving freight just as fast as it can be handled here, and will soon relieve the yard of its surplus.

TOLEDO STRIKERS GAIN.

Capture Many Men Brought In to Take Their Places.

TOLEDO, Ohio, July 12.—While the managers of the various Toledo roads are more confident of the general outcome of the strike there is little question but the strikers made gains through the day. Several carloads of non-union men came in from Buffalo and other eastern points, but they were promptly taken in tow by the American Railway Union and almost every man enlisted. The striking Cincinnati, Hamilton & Dayton switchmen, yardmen and train crews will not return to work. The Clover Leaf is doing nothing. The Ohio Central men are still out. A number of Michigan Central men who went to work Tuesday struck again yesterday. The Mackinaw & Ann Arbor and Wheeling & Lake Erie are tied up tighter than ever. Many Pennsylvania men have gone out.

CINCINNATI, Ohio, July 12.—The arguments in the case of Strike Manager F. W. Phelan closed yesterday afternoon. The judge announced that he would endeavor to deliver his decision Friday morning, intimating the questions involved required some time for consideration.

SOUTHERN CITIES PAY NO HEED.

Sovereign's Order Produces No Strike Results Among Them.

BALTIMORE, Md., July 12.—General Master Workman Sovereign's appeal produced no effect in this city. The prevailing belief is that not many here will join the strike.

RICHMOND, Va., July 12.—Sovereign's order has had no effect here. Labor leaders say there is no unrest here and are confident there will be no trouble.

MEMPHIS, Tenn., July 12.—No Knights of Labor strike has occurred here.

NEW ORLEANS, La., July 12.—The recall of Sovereign's order, coupled with the conservative action of the representatives of the business-men has made a general strike in New Orleans almost impossible.

NASHVILLE, Tenn., July 12.—Local assembly Knights of Labor met and adopted resolutions expressing sympathy with the railway strikers and promising to render assistance, but refused to go out.

JACKSONVILLE, Fla., July 12.—Sovereign's strike order fell flat in Florida. The Knights of Labor simply ignored it.

MONTGOMERY, Ala., July 12.—There are no strikes of labor organizations here. Everything is quiet.

NO STRIKE AS YET.

Des Moines Pays No Attention to Sovereign's Appeal in the Northwest.

DES MOINES, Iowa, July 12.—There has been no strike here in Sovereign's home town and it is not believed there will be any.

ST. PAUL, Minn., July 12.—No effect was visible as a result of General Master Workman Sovereign's order, the Knights of Labor not being strong in this city.

MINNEAPOLIS, Minn., July 12.—No strike has occurred here yet in response to Sovereign's order.

SIoux CITY, Iowa, July 12.—Sovereign's order calling out Knights of Labor will have no effect here.

OMAHA, Neb., July 12.—The Knights of Labor were in a constant state of excitement and expectation yesterday. While no orders to strike were received the men expressed their willingness to go out.

DENVER, Colo., July 12.—The workingmen in this city are not inclined to join in a sympathy strike on behalf of the Pullman employes.

SAYS WICKES WOULD ARBITRATE.

TERRE HAUTE, Ind., July 12.—Debs' attorney, Harper, who will defend him in the federal court at Chicago against the charges made against him, has just returned from Chicago, where he went to induce Vice-President Wickes of the Pullman company to arbitrate the question at issue.

He says Wickes is not to blame and if he could personally take action he would arbitrate, but he is acting under instructions from Pullman and therefore stands by him.

CLOSES DOWN THE ENTIRE SYSTEM.

BELLAIRE, Ohio, July 12.—Yesterday orders were issued by General Manager Blair of the Wheeling & Lake Erie railroad, running from Bellaire through Wheeling, W. Va., and Martin's Ferry, Ohio, to Toledo, Ohio, 100 miles, closing down the entire system. The action is caused by the strike of the American Railway Union. Only three trains are running. Three thousand coal miners and railroad employes are idle.

WISCONSIN MILITIA ORDERED HOME.

EAU CLAIRE, Wis., July 12.—Col. Moore has issued orders to dismiss the four companies of the Third regiment which have been under arms at Hudson, Menomonie and Eau Claire, each to be in readiness to reassemble promptly if ordered. Passenger and freight trains are reported as moving all right on the northern division of the Omaha.

MOB FIRE ON A TRAIN.

TERRE HAUTE, Ind., July 12.—Passenger train No. 5, on the Chicago & Eastern Illinois, which arrived here last night, was fired on by a mob shortly after leaving Danville, Ill. There were four shots fired by the mob and two by the engineer in reply. No one was reported hit.

BRIDGE NEAR FARGO IS BURNED.

FARGO, N. D., July 12.—The bridge over the Buffalo river, east of Fargo, was burned at 2 a. m. It was 200 feet long and will take several days to repair. Transfers are now being made around the bridge. It is supposed to have been set on fire.

TIE-UP COMPLETE AT MASSILLON.

MASSILLON, Ohio, July 12.—The Wheeling & Lake Erie tie-up was made complete by the withdrawal of all the brotherhood men who were unable to continue at work without a full complement in each train crew.

STREET CAR MEN STRIKE.

YOUNGSTOWN, Ohio, July 12.—All of the men employed by the Youngstown car lines struck at midnight on account of objectionable rules. They also want a readjustment of wages.

ADVERTISEMENTS FOR NEW MEN.

TERRE HAUTE, Ind., July 12.—The Big Four strikers still refuse to return to work and local newspapers contain advertisements for men. There is but one lodge of the Knights of Labor here, that of brewery employes, and they will not strike.

HURTS THE RAILWAYS.

McKee's Land Forfeiture Bill Passed the House.

WASHINGTON, July 12.—By virtue of the adoption of a special order the house was enabled to reach a vote on the McKee land grant forfeiture bill yesterday, and it was passed. The bill amends the act of Sept. 29, 1890, which in substance declared the forfeiture to the United States of lands theretofore granted to states and corporations to aid in the construction of railways, to the extent only of lands opposite to and continuous with the portions of such railways as were not completed and operated at that time. It involves portions of the grants of twenty-five roads, the principal one of which is the Northern Pacific, and will restore to the public domain about 54,000,000 acres. A proviso was added to the bill so as to prevent it from being construed to forfeit the right of way or station grounds, and also confirms to purchasers in good faith from such railways the title to lands not in excess of 320 acres to each holder. An effort was made by Mr. Hartmann of Montana to remove the 320 acres limitation on purchase titles, but this was defeated by a vote of 96 to 117.

EIGHT ARE SHOT.

Striking Pennsylvania Coke Burners fired On by Imported Negroes.

SCOTTSVILLE, Pa., July 12.—Yesterday a body of imported negro coke-burners fired into marching strikers at Summit. Eight men were shot. For several weeks, or ever since the operators began importing negroes from the south, the coke burners of this region have been in a ferment of excitement, and threats of the direst kind have been made on both sides. The negroes have had the support of the operators and armed for emergency. The emergency came this morning, and although particulars are meager, it is reported that the strikers were the aggressors and that the negroes opened fire when expecting a raid. It is said also that all the men shot were strikers. Owing to the intense excitement prevailing at and near the seat of the disturbance, telegraphic communication is very much impaired. It is thought here that the occurrence will give rise to a general movement in the coke regions against the imported blacks.

BASEBALL.

Game Played in the National League Yesterday.

The Western clubs made a clean sweep yesterday, defeating their eastern enemies all along the line. As a result, Pittsburgh took fifth place from Brooklyn and Louisville came up from the bottom, passing Washington. Scores were as follows:

At Chicago:
Chicago.....1 0 3 0 4 0 0 5 0-13
Boston.....0 0 0 0 1 0 0 0 0-1

At Louisville:

FEW KNIGHTS QUIT WORK.

TOLEDO, Ohio, July 12.—No attention has been paid to Sovereign's order.

INDIANAPOLIS, Ind., July 12.—There are no Knights of Labor men here. Sovereign's order has had no visible effect.

EVANSVILLE, Ind., July 12.—Knights of Labor did not strike here.

FORT WAYNE, Ind., July 12.—No Knights of Labor quit work here.

TERRE HAUTE, Ind., July 12.—Sovereign's appeal to the Knights of Labor to strike had no effect here. The membership is small and few of the Knights are now employed.

DETROIT, Mich., July 12.—There has been no strike of Knights of Labor or other organizations in compliance with Sovereign's request.

BIG FOUR MOVES TRAINS.

MATTOON, Ill., July 12.—The Big Four moved four freight trains yesterday for the first time since July 3. All passenger trains are running on time. There has not been a cause for the arrest of a single railroad employee during the strike.

WARSAW, Ind., July 12.—The Nickleplate road fearing more trouble called on Sheriff Stoner yesterday for a force of deputies to guard its road through Kosciusko county. It will attempt to move freight trains at once.

HOUSE WILL INVESTIGATE.

WASHINGTON, July 12.—The house committee on interstate and foreign commerce has decided, after a long and spirited session, to investigate the labor troubles growing out of the Pullman strike. A sub-committee will report a resolution to the full committee at 3 o'clock, and if agreed upon it will be brought before the house without delay.

BALTIMORE KNIGHTS ARE WAITING.

BALTIMORE, Md., July 12.—Master Workman William H. S. Stork of district assembly No. 41 says, regarding General Master Workman Sovereign's suggestion, that no official notice has been received and he doesn't know what action will be taken. He believes, however, that the Baltimore knights would comply with an order to strike. Knights of Labor in Baltimore are estimated to be 5,000 strong.

WRECK AND PILLAGE
THE MOB'S METHOD.

WEST OAKLAND ROUND HOUSE BESIEGED.

Rioters Couldn't Gain Entrance so They Tipped Over Two Locomotives and Blocked the Road to Santa Cruz—The Killing of Regulars Near Sacramento.

SACRAMENTO, July 12.—The strikers at West Oakland attempted to raid the round house this morning. Being unable to effect an entrance they dented two engines blocking all trains to Santa Cruz. Central.

SACRAMENTO, Cal., July 12.—Central Pacific passenger train No. 4, which left yesterday morning for San Francisco under a heavy military guard, was wrecked at a trestle two and one-half miles west of here. Three artillerymen were killed, also the engineer, and four artillerymen were injured. The wreckers had unsprung the rails for eighty feet and covered their work with sand. One of the stringers had been cut off and a small piece of wood substituted in such a way it would fall through as soon as a heavy weight passed upon the rail. Several arrests have been made.

Officers have found the tools which were hidden with which the rails were removed from the ties and know who hid them.

The train consisted of nine cars, five of them Pullmans. On the engine were Privates Lubberding, Byrne, Clark, Dugan, Ellis and Wilson. The engine plunged through the trestle and none of the men had time to jump and save themselves. Those of the men who were not instantly killed were weighted down with their heavy accoutrements and sank into the muddy water. Engineer Clark was pinned under the engine and his body has not been recovered. The trestle was about eighty feet long and was completely shattered. Fully one-half of the filling was torn out. The engine is buried in the mud and water, with the four forward cars. Another car is hanging over the edge of the embankment. They were all mail cars and none of the Pullmans were injured. Shortly after the report that the train had been derailed Division Superintendent Wright ordered the wrecking crew to the scene. Col. Graham also sent a company of infantry to head off the strikers.

As soon as Col. Graham, in command of the federal troops here, heard of the wreck he sent a body of soldiers to the scene to get out the bodies and run down any strikers that might be found in the vicinity. It is reported that two artillerymen are not accounted for.

Shortly after 6 o'clock in the morning the steamers Alameda and Acme, carrying the regular troops, steamed up the river and landed at the levee. They were met by several companies of militia, who had been entered to keep the crowd back, fearing an attack by the strikers and their sympathizers. Shortly after 7 o'clock the regulars and marines marched to the depot, headed by Col. Graham and staff. The usual crush of spectators took place, but they were quickly dispersed. The strikers had abandoned the situation and were nowhere to be seen. Sentries were at once detailed to keep the crowd at a safe distance and the gatling guns were placed in position.

Col. Graham has practically put the town under martial law. A troop has been put on guard in the vicinity of the wreck. The men in the troop are bitter against the strikers, who, of course, are blamed for the derailling of the train, and their comrades at the depot predict they will deal severely with any of the strikers they may encounter. The regulars can be heard discussing the affair on all sides, and it is evident from their conversation that they are eager for an engagement.

Sheriff O'Neill arrested S. D. Worden on suspicion of being implicated in the derailling of the train. Worden has been quite prominent in labor circles, and was recently sent as a delegate to the Chicago convention. The sheriff has also arrested G. G. Green, William Burt and H. E. Bodner, strikers, for complicity in the wrecking of the train. They will be held pending an investigation.

Acting under instructions of Col. Graham a detachment of soldiers seized a number of rifles and 100 shot-guns. No resistance was offered by the strikers.

REFUSE TO HAIL REGULARS.

BENSON, A. T., July 12.—The Twenty-fourth United States infantry, under orders from Washington to proceed from Fort Huachuca to Santa Fe to aid in suppression of the strike, boarded the train of the Guaymas branch of the Atchison, Topeka & Santa Fe railroad at Huachuca station. The engineer and fireman got out their engine and came to Benson, leaving the train standing at Huachuca.

"SOO" SWITCHMEN STRIKE.

MINNEAPOLIS, Minn., July 12.—The switchmen of the "Soo" road in this city to the number of about forty struck yesterday. Their grievance is that they were required to switch cars from the boycotted roads. This is the first trouble the Soo has had, as its own sleepers. Thus far the strike has not had a serious effect on Soo train service other than to delay it considerably.

JOE DOE'S OPINION ON OUR MILITIA.

ASSISTANT SECRETARY OF
WAR LAUDS THE W. N. G.

Wisconsin Soldiers Would be Called Out if Uncle Sam Needed Help—Governor Peck is in Command of a Disciplined and Loyal Force of Men.

Assistant Secretary of War Gen. Joseph B. Doe, said in reply to a question in Washington yesterday that he did not believe Wisconsin would be called upon for troops to serve in Illinois during the present emergency. He was of the opinion that the regulars now in Chicago would be equal to the occasion and did not think it probable that the president would call upon the state troops. If this should become necessary, however, he thought it likely that Wisconsin would be called upon because of being near by and for the further fact that he knew Wisconsin National guard stands as high in the estimation of regular army officers as any in the country. Very close attention is paid at army headquarters, he said, to the condition and probable efficiency of the national guard and the equipment, personnel and discipline of the Wisconsin troops is held in the highest estimation. So far as rumors of impending troubles in the Badger state are concerned he said that with the well known character of Governor Peck, his deliberate and careful methods, together with the discipline and loyalty of the troops to the government, no uneasiness need be felt.

Proud of the State Troops.

"With George W. Peck to direct," he said, "and such men as Adjutant-General Otto H. Falk, General Louis Auer, Col. E. M. T. Moore, worthy H. Patton, Allen F. Cadwell and Albert Bleul, with the other officers and men to execute, there is no danger of any outcome which will not be a source of pride to all the law-abiding citizens of the state." Continuing, General Doe said: "I consider the true principle involved in the present labor trouble to be this—the right of the individual to stop work or of organized labor to strike must be recognized and if necessary defended. At the same time the right of a man to engage in such employment as suits him or may present itself for such wages as under the circumstances are acceptable to him must also be recognized as one of the dearest and most fundamental rights of citizenship under a fair government. Labor has as much right to organize and peacefully urge its claims as capital has to combine for its interest and protection.

Men Must Be Allowed to Strike.

"But when one man or set of men undertakes to forcibly prevent another man from exercising his choice of labor or to interfere with his efforts to support his family, then, and not till then, in my opinion, is the time for the government to interfere. If a man is not at liberty to work at such occupation and for such wages as may, under the circumstances, be acceptable to him, he is subject to the most oppressive tyranny, and our boasted freedmen is but a delusion and an empty dream. This is the position substantially taken, as I understand it, by the administration in Wisconsin, and to my mind it is absolutely sound and the only correct one. It is therefore to be expected that so long as strikers are peaceable and violate no law, they will be undisturbed in Wisconsin; but when they undertake to say, as they have in some portions of the country, by their acts at least, that the man who wishes to work shall not, then it is time for the government to exhaust every resource if necessary to protect those who desire to earn an honest livelihood from interference from any source.

Tyranny of the Mob.

"While in conservative and order-loving Wisconsin no serious disturbances are to be expected, yet it is hoped, and with confidence, that if wanton destruction of property and violence to workmen not in sympathy with the disturbing elements should begin, that bayonets and bullets will be supplied by the state as a remedy rather than the irritating nostrums of wordy manifestos and verbal quibblings over legal technicalities. If it be right for any workman or organization of labor to drive an engineer from his cab with stones or arms when the engineer wishes to run his engine, then it is no more unlawful or improper for an employer to chain a man to his engine and at the muzzle of a gun force him to run it. The latter is no greater tyranny than the former. To forcibly prevent a man working when his wish is to work and has found an employer makes a slave of that man just as much as to force him to work against his will. To do either of these things is to destroy that individual freedom of action, that personal liberty which is, and should be, the dearest and most cherished right of the free American citizen."

HE BORROWED THE DEBS SCHEME.

Burly Complainant Was Bound to Get His Rights at Any Cost.

"My position is simply stated," said the burly ruffian, as he waved his club in the air. "I had some trouble with a man about half an hour ago, and I want him to settle it." "What's that to me?" asked the wayfarer in surprise. "I'll mighty soon show you," replied the burly ruffian threateningly. "If he don't settle it I am going to brain you." "But how can I make him settle it?" inquired the wayfarer. "How should I know?" replied the burly ruffian. "But he's a disreputable scoundrel." "Quite likely," admitted the wayfarer. "Still, you know, I can't force him to bow down to you or do as you wish." "If he doesn't I'll smash your head in!" "That won't help you any." "I can't help that. I've got to maintain my prestige by whacking someone." "Why not whack him?" "Confound it, I did! But he's dressed in armor-plate or something of that sort, and it didn't hurt him enough. Come! Quick now!" "You know I can't do anything." "Then here goes!" And the burly ruffian promptly knocked the wayfarer down with his club. Then he took a closer look at him, and discovered that he had disabled the only man who could be of service to him.—Chicago Evening Post.

SUNSTROKE AND FIRES IN PLENTY.

James Johnson Prostrated—Prohibition Tent Destroyed by Incendiarists. EVANSVILLE, Wis., July 12.—James Johnson, living a short distance from Evansville, was prostrated by sunstroke Tuesday, at 5:30 p. m., but under the skillful care of Dr. Smith he bids fair to recover. The prohibition tent used by Mr. Titus was destroyed by fire at Magnolia, Tuesday. It is supposed to have been the work of incendiaries. A spark from an engine set fire to grass on the farm of Mordica Sales, and the flame spreading to a vacant house on the premises was totally destroyed. An infant son was born last night to Mr. and Mrs. Del. Bidwell, but it only lived four hours.

CITY ASKED TO AID OAK LAWN HOSPITAL.

VERY LIVELY MEETING OF
STOCK HOLDERS.

Policy Pursued By Physicians is Discussed—William Ruger Placed at the Head of a Committee to Confer With the Common Council—Annual Expense is \$3000.

Aid from the city will be sought in behalf of Oak Lawn hospital. At a small but lively meeting of stockholders last night Secretary Haselton stated that the money received from pay patients during the past six months was in excess of that received the six months prior, but the expense of running the hospital was also increased. In round numbers it required

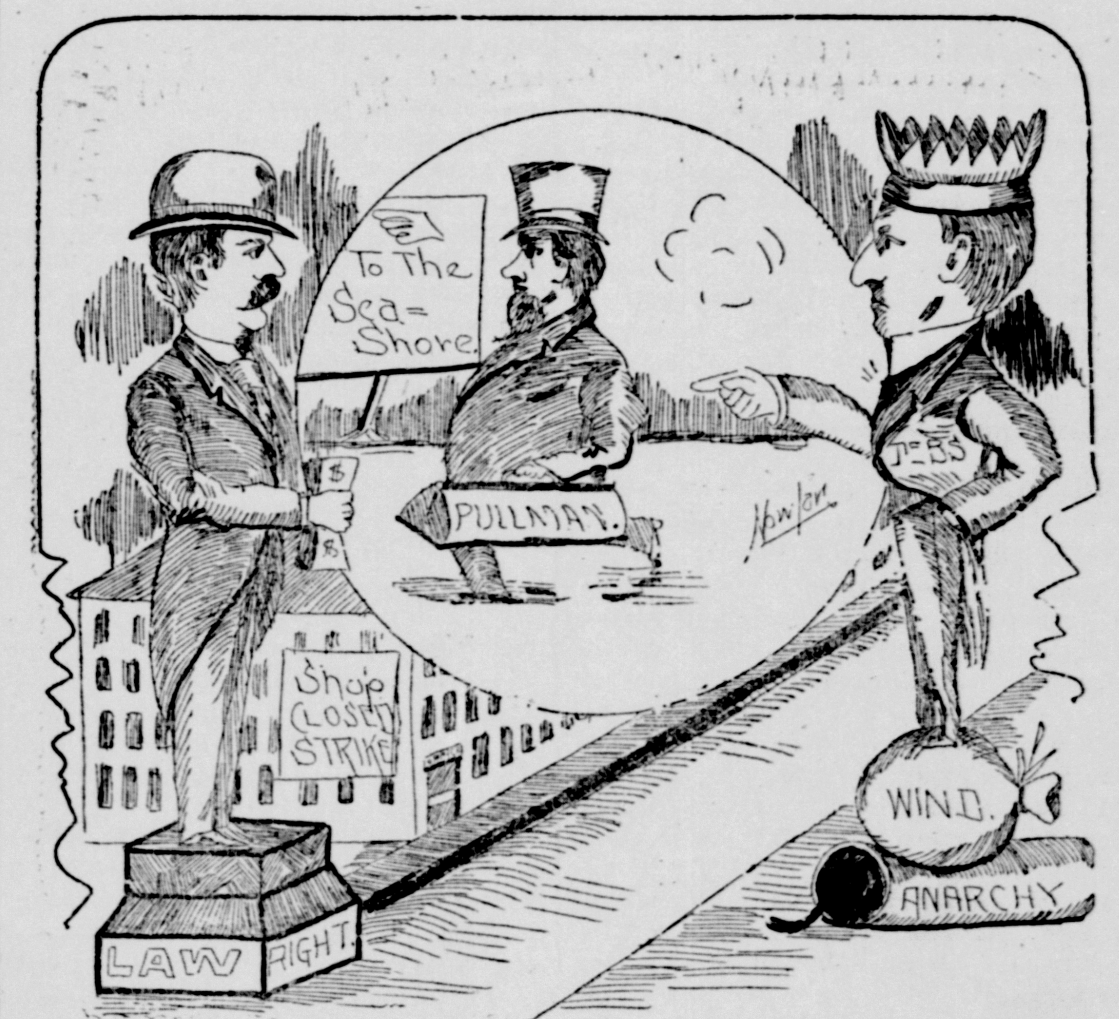

had simply consulted him and he promised to do what he could for them. He did not want to see the hospital closed. It had done a good work and was well advertised about the country. The statement that he was interested in the new hospital had come from the officers of Oak Lawn hospital and was a falsehood.

Charity Patients Pleading.

Dr. Whiting protested vigorously against any step that would fill the hospital with charity patients. Any physician with a fair practice had enough cases of this kind to fill the hospital in a month, he said. Before people would open their pocketbooks that they must know more about the management of the hospital, and that a detailed account of its workings from the beginning must be submitted to the people.

It was suggested by Mrs. C. S. Crosby that this had been done through quarterly reports published in both papers.

DEBS' "REASONABLE" PLAN OF ACTION.

Janesville Manufacturer—"Why must my Janesville establishment suffer for your strike in Illinois?"

King Debs—"Why? Because you don't corral Pullman and compel him to arbitrate."

"But he says he has nothing to arbitrate."

"He can't make us work but we will compel him to. We'll train you until you train Pullman 'or' until he freezes over." Buzz ? ? ? ? ?

Secretary Haselton's report, read as soon as the meeting was called to order, showed the financial condition of the hospital to be as follows:

Balance on hand December 13, 1893.	\$8 67
Donations received.	538 50
Board.	797 18
Total.	\$1,384 35
Expenses.	1,384 63
Balance on hand.	472

Secretary Haselton stated that bills had been sent to his office amounting to \$128.62. There was a note of \$500 given last October to raise money to pay debts which is due August 1st and there was also due Dr. Henry Palmer for the surgery department between \$200 and \$300, making a floating debt of between \$1,200 and \$1,300 at the present time.

CONCORDIA WON'T GO TO LA CROSSE

Janesville Society Not Among Those Represented at the Saengerbund.

Concordia society will not go to the Saengerbund festival in LaCrosse this year. Money is scarce and the society decided that its dollars could be better spent here in Janesville. Improvements are to be made in the hall and the society spends considerable money in charity. The LaCrosse festival begins this evening and close on Sunday. Societies from thirty cities will be in attendance. The largest number of singers will be from Milwaukee, whose delegation will be composed of nine societies, including a large number of ladies.

The first festival concert will be given on Friday evening, when the mass chorus will be brought into action. On Saturday concerts will be given in the afternoon and evening.

SHORT BOWER CITY NOTES

MADDER BROS. will have an opening Saturday night at their saloon, at 102 West Milwaukee street, formerly James Foole's place. The public is cordially invited.

WORK IN THE YARDS HAS TAKEN A BOOM.

LOCAL RAILROAD MEN HAD TO
HUSTLE TODAY.

First Way Freight Out of Chicago on the C. & N. W. Came in This Morning—C. & N. W. Engineers Did Not Favor the Tie-Up at Any Time.

Local railway men were cheerful this morning on account of new orders received, and the prospects of a general resumption of railway business. A busy and confident air prevailed all through the depots and yards, and employees who have been idle for days were busy at their old posts.

Passenger Agent Potter, of the Northwestern, received orders to sell tickets for all points east on the Wabash and Nickel Plate lines, evidence that the embargo on those roads had been raised.

The first way freight out of Chicago on the Chicago, Milwaukee & St. Paul line, since June 30, arrived in Janesville this morning. The train consisted of thirty-five cars, all loaded with merchandise for distribution on the Mineral Point division.

"Every one of our freight and passenger trains are now running," said Station Agent Johnson of the St. Paul this morning. "We have any amount of freight to move, and even if nothing new occurs we will have plenty of work on hand to catch up with our regular trade."

More Head Breaking to Come.

Freight Agent Rancous of the Northwestern has received instructions to receive all kinds of freight again except that of a perishable nature, and the Northwestern trains are again moving with their accustomed regularity over all their divisions.

"It looks as if the strike was over," said a prominent railway man this morning, "and I expect to see a number of men who have strongly favored the tie-up, break their thick skulls on some stone abutment."

Northwestern engineers have taken a sensible view of the strike from the first. Said one of them:

"Perhaps we are hauling Pullmans, but my business is on the engine, and I see no reason why I should walk back to ascertain what company manufactured the coaches in the train."

Don't Worry About Pullman.

Another old-time locomotive engineer expressed himself most emphatically. He said:

"I am working for the Chicago & Northwestern railway company—have been in its service a good many years. I have found no reason for striking or throwing up my job. There has been a good deal of talk about the Pullman Car company. As far as I am concerned as a locomotive engineer I know nothing about that company's troubles. I have pulled a great many Pullman cars—at least I suppose I have. I don't know that I ever paid any attention to the make-up of a train that I had to pull. It may be claimed that I am hauling a carload of scab-made boots and shoes. Is it my business to stop the train, go back and examine and wait for proof of the charge? I think not."

Lubricating Oils.

Of some of the various lubricating oils now resorted to, a writer in London Industries remarks that the materials entering into the composition of some of the ordinary soaps not only give good results but constitute a compound for linder use greatly preferable to many of the "cylinder oils" that are often employed, of which the chief qualifications are their black color and tarry consistency, it being erroneously supposed that because a good cylinder oil is of high viscosity and is often dark colored the converse must necessarily be true, and that oils possessing these properties will be excellent cylinder oils. Where the use of mineral oil replaces that of tallow there is an absence of the corrosion of the cylinder consequent on the saponification of the fat by high pressure steam, with the production of free fatty acids, which are often present in such quantities as to form masses of iron soap weighing many pounds. Cases have occurred where the use of mineral oil having been substituted for that of tallow, and this iron soap having been consequently dissolved out and for the first time brought to light, the new lubricant has been mistakenly condemned.

New Multipolar Generator.

We give an engraving of a recently perfected Multipolar Generator which an enterprising company has just put on the market. The frame of the machine is composed of several parts, making it convenient to handle. The total weight is quite uniformly divided between the several parts, as shown in the engraving, making a machine which may be conveniently set up in stations not provided with apparatus for handling very heavy weights. The bed is planed to fit iron

effective polar arc, and prevents the disagreeable humming sometimes observed with toothed armatures under heavy loads and suppresses the tendency to spark by reason of stray lines of force. The armature is of the toothed hollow drum type. By a system of end connections, crossing of the conductors at the leads of the armature is avoided, thus reducing the danger of short circuiting and burning out and permitting of conveniently getting at every wire. The commutator is massive, and the well-known Belknap patent woven wire and graphite brushes are used. The bearings, which are very large, are self-lining and self-oiling. The two terminals are located at opposite sides of the machine, to avoid the danger of a short circuit. The field cores are compound wound and the magnetic circuit of the machine is carefully designed with reference to the reluctance of cast iron, wrought iron and air, so as to get the very best attainable effect from the materials used.

An Interesting Event.

Quite an interest has been created in Lewiston, Maine, by a recent local manufacturing product, namely, the first silk fabric ever woven upon a power loom in that place, and probably east of Boston, the article being an attractive reproduction of the new Lewiston Mill company's building. Two colors, blue and black, were decided upon to commence with in this line, the size being about 12 by 8 inches, and the building is deftly woven into the center, with a border of one inch and silk fringe about the edge. So fine is the reproduction of the photograph of the building in this fabric that the stone of the arches, the open doors, the stone image over the front window and the clock in the tower are all distinctly visible in their minutest detail. This is the beginning of an industry intended to be developed into much larger sized objects.

The Real Demon of the Marsh

Is not a spook, but a reality. It is neither a "boogie" nor a "kelpie," nor any other of those spirits which the credulous have supposed to haunt the banks of rivers and streams after dusk. Its name is malaria, and though invisible, it is very terrible and tenacious when it seizes you. Hostetter's Stomach Bitters drives it away, nor will it attack those whose systems are fortified with the great medicinal defensive agent. The malarial mists of early morning, the vapors exhaled at eventide may be safely breathed by those protected by the Bitters. In the tropics where every form of malarial disease threatens the sojourner, and is particularly virulent when developed, the Bitters is the best reliance of the inhabitant. For dyspepsia, liver complaint, lack of vigor, apoplexy, loss of appetite, and nervous, and all the ills that are a sure and safe remedy.

It will astonish you how quick Johnson's Magic Oil will kill a pain. Sold at Smith's pharmacy: 25 and 50 cents.

When she had children, she gave them Hostetter's Stomach Bitters. When she became ill, she took it for herself. When she was a child, she took it for her mother. When Baby was sick, we gave her Hostetter's Stomach Bitters.

THE SITUATION CHANGES.

The question now before the American people is not a question of arbitration. Neither is it a question in which Mr. Pullman has any more interest than any other good citizen. Many of the wage workers of the country have been induced through sympathy to join the ranks of a class of men now under indictment by the general government for violating law. The sympathetic strikers would not like to be classed as law breakers, yet under the dictation and leadership of hot headed and misguided agitators, they have said by their actions: "We prefer to cast our lot with the lawless and take the chances."

Sober second thought would convince the most radical that such action is suicidal in the extreme. The cause of labor has everything to lose and nothing to gain in this kind of a strike. Capital is the only practical friend that labor has. Charity reduces labor to mendicancy. Every self respecting man prefers employment to charity. The ambition of every honest laborer is to some day become a capitalist, and so the savings are carefully hoarded until a sum is reached that warrants investment. Thus capital is created, business enterprises spring up and the laborer is transformed to a capitalist. When the panic of '93 struck the country it was found that one and half billions of this kind of capital was distributed among the savings banks, the property of the laboring man. When the Pullman employes went out the first of May, their savings bank in Pullman had nearly half a million of money belonging to the Pullman wage workers.

The destruction of capital, or the right to dictate its use, means idleness and suffering not only to the men who are responsible for overt acts, but to tens of thousands of others not in sympathy with lawlessness. Success for the strikers and labor agitators in the present issue, means retirement from active business of millions of dollars now employed in manufacturing and other industries. This means enforced idleness and hard times for labor. It means more than this for the situation has now assumed the grave proportions of general lawlessness and success of lawlessness means the overthrow of any government. "The government,

must be maintained at all hazards," will be the verdict of all good citizens.

The whisky trust is bottle holder and the sugar trust is rubber-down in the tariff fight between the senate and the house. Mr. Cleveland is seconding the house and senators Brice and Gorman the senate, while Dave Hill is doing the disinterested on-looker act. No gloves are to be used and it is to be a fight to a finish.

The worst feature about the strike engineered by Debs is that his organization has no strike fund to draw upon to feed the strikers and their families. Compelling a man to strike and then letting him and his family starve is a crime that should be punishable.

The most senseless of all strikes is a "sympathetic" strike. When a man strikes for his own grievances he is apt to get the sympathy of the public, but when he strikes for another's grievances, he is more apt to be called a fool.

Even if the states' rights doctrine were the law of the land, which it is not, Mr. Cleveland would be perfectly justifiable in ignoring it in dealing with mobs in states so unfortunate as to be cursed with anarchist governors.

If Governors Altgeld, Stone, Waite and Pennoyer want Debs to reciprocate they would better get in their applications before Mr. D. takes his dive to his native obscurity.

Some of Mr. Cleveland's own party are denouncing him for his efforts to maintain law and order, but the patriotic people of the country will support him.

Governor Altgeld appears to be cut for the anarchist vote, regardless of right, sense or justice; but the good people of Illinois will see that he gets the latter.

Coxey and Debs are not the first men who have mistaken the buzzing of the wheels in their own heads for sounds of a coming revolution.

The large number of fools in conspicuous positions has been made painfully evident by the disturbances attendant upon the strikes.

The demagogue who excuses the anarchist's crime is really a worse man than the anarchist.

The Chicago platform, like that of a railway passenger car, was not made to stand upon.

Few men can be enthusiastic strikers in the presence of their hungry families.

Don't Wait For Tomorrow.

Tomorrow never comes, but today is always here. Shake hands with present opportunities. They may not come again. Do you realize that we are not looking for a profit now? Our \$7.00 offering can't last long. Do you need a suit? Would you buy an \$18.00 suit for \$7.00? Such a cut seems impossible, but such is the case. We are determined to close out all our broken lots of summer suits during this month and for this reason we have prepared this sale. We have massed together all lots of suits which consists of one, two or three and have made \$7.00 the price which should make them go quick. We are the losers; you are benefitted by this sale. BLAZE COST \$8000
IN THE WIRE WORKSJAMES HARRIS SUFFERS A
HEAVY LOSS BY FIRE.

Spark in the Roof of His Factory on River Street Results in Almost the Total Destruction of the Plant—Only the Storage Building is Saved.

Fire cost the Janesville Barb Wire Co. \$8,000 this afternoon and threatened the Janesville Machine Co. with a loss far heavier. In the roof of the barb wire works there grew a flame, believed to have sprung from a stray spark. The flame was fanned by a hot wind and enveloped the roof before it was seen.

An alarm went in from the Janesville Machine Company box. Small chance there was of saving the burning building, when the department arrived it needed only the falling of the roof to make it a complete ruin. The fire had spread with a rapidity that told of the store of oil and Japan varnish which furnished fuel.

Direct pressure and then double pressure was called for in successive signals. Firemen almost surrounded the building with a wall of water.

Building all in Flames.

The building which was in flames was one story high, and built wholly of wood. It was about 30 by 60 feet, and faced on River street. Separated from it by a small woodshed was the Janesville Machine Company's wood shop and a narrow passage-way separated it from the barb wire storehouse to the south. Inside was machinery valued at over \$6,000—wire-making machinery, nail-making machinery, and a japanning plant. The japanning materials gave the fire its fierceness which any amount of water seemed powerless to subdue.

Starting in the roof the flames soon broke through into the work rooms below and from every window. They leaped across the street to buildings in the rear of Plowright's coal shed. They found lodgment in the roof of the storage house, and threw angry brands toward the big machine shops near by.

Firemen Kept Very Busy.

Firemen were forced to guard every side to prevent further spread, and besides that to battle vigorously at the main point of danger. They surrounded the blazing, oil-filled factory and forced their way far into the passage. Then came a crash. The roof caved in sending out a wave of fire on every side. Two of the pipemen staggered out almost helpless from the smoke and flame in which they had been wrapped. They recovered in a few moments and were again at work.

As often as the fire in the factory was subdued, and the pipemen turned to other buildings there would be a puff and a roar and the shop once more seemed a blazing pit. The supply of inflammables appeared inexhaustible. Not until 3:30 were the flames under control. The factory and machinery were totally destroyed, the other buildings being very little hurt.

Janesville Machine Company men rendered efficient aid in conquering the fire. They had two streams from the engine room and used them to advantage.

Loss Covered by \$8,000 Insurance.

The insurance on the destroyed building was \$2,000 with \$4,000 on the machinery and \$2,000 on stock. The loss was total.

The big storage building which stood next door contained the office and the rooms for storing wire and nails. This building was injured very little. It was insured for \$2,000 with \$5,000 for contents. All the insurance was in the Hayner agency except for \$1,000 with Metcalf & Cleland.

For some time the barbwire and nail factory has not been running. "The stock was used up as close as possible," said James Harris, the owner. "I can't tell what my loss is until I see my books. Perhaps \$8,000 would be a fair estimate."

The loss is fully \$2,000 less than it would be had the fire occurred in the midst of the busy season. Then the factory would have contained much more in the way of stock, finished and unfinished than it held today.

Miners Take No Action.

COLUMBUS, Ohio, July 12.—John McBride says there are from 7,000 to 8,000 Knights of Labor among the coal-miners and that it is customary, in case of a strike being ordered by the head of the Knights of Labor, to refer the part affecting miners to the heads of the miners' organization. This has not been done as yet in the present instance. From 80,000 to 90,000 miners are now out of employment.

No Walkout at Cincinnati.

CINCINNATI, Ohio, July 12.—District Master Workman Hugh Kavanaugh of the Knights of Labor, when asked today what would be done here under the order of General Master Workman Sovereign, said the latter had no authority to order a general strike. All he could do was to advise and request it.

All Quiet at Pittsburgh.

PITTSBURG, Pa., July 12.—Up to this hour there are no new developments in connection with the strike. It is now believed absolutely certain that the railroad men will, for the present at least, continue at work on all lines running into Pittsburgh. The action of the K. of L. is not yet known.

FUNERAL OF LULU BELLE HEDDLES
Hosts of Young Associates Pay Loving
Tribute at Her Grave.

The assembling of the young people of the society of Christian Endeavor at the funeral of Lulu Belle Heddles, daughter of Alderman and Mrs. S. B. Heddles, at the family home on Mineral Point avenue this afternoon, at 3 o'clock was an exemplification of the tender love and strong ties which bound the deceased to her associates. Lulu had been the faithful secretary of the First Presbyterian Endeavor society for two years, and had just been reelected to the same position. The little white casket in which the remains lay was beautified by floral tributes, while white floral wreaths and floral tokens were many. The sympathy for the bereaved parents was wide spread, as attested by the large attendance at the funeral services, many coming from Edgerton and other places about the county. Rev. Dr. W. F. Brown and Rev. E. H. Pence, of the Presbyterian church, conducted the impressive services, the music being by the Presbyterian choir and organist. The funeral party was accompanied to the grave at Oak Hill by many mourners. The pall bearers were E. M. Calkins, Harry Ruger, Harry Cowles, George Stewart.

FOUND MANY SEEKING \$1.50 JOBS
Milwaukee Street Discussion of Democratic Times Ended Very Abruptly.

"Men who want work can find places, democratic times or not," is the statement frequently made.

A crowd blocked the sidewalk in front of the Lowell store this morning and heard the question discussed vigorously. Thomas Pratt, the stone quarry man, laughed at the idea that men who wanted work this year could not find it. He declared that men could get all the work they wanted, and that nobody in the crowd would accept work at \$1.50 a day.

"I want men at that figure," he said, "but none will agree to go."

Pratt spoke too quickly. In an instant a dozen or more yelled out their assent and agreed to be on hand tomorrow morning. Pratt engaged a number, agreeing to pay the wages named, commencing in the morning. Some one will back down or the Pratt quarry will be a lively place at 7 o'clock tomorrow morning.

BUSINESS MEN BATTING WELL
Their Game With the Y. M. C. A. Tomorrow Likely to Be an Interesting One.

The business men are making great preparations for a game of ball tomorrow afternoon at 3:30. The Y. M. C. A. will appear in their new uniforms. This will undoubtedly be a very interesting game. The proceeds will go to the Y. M. C. A. funds and besides the recreation and good time, citizens can make this a profitable two hours spent for a worthy cause. In the business men's practice game yesterday afternoon A. C. Jenkins of the Merchants' & Mechanics' bank hit the ball for a clean home run.

PAPINTA.
A Graceful and Attractive Dancer From the Slope.

This graceful and attractive dancer was born in San Francisco, Cal., twenty-one years ago, and there she passed her early childhood. She is of an illustrious family, one of her uncles being United States Senator Mitchell of Oregon. She is also a cousin of Mattie Mitchell, who, it will be remembered, created a social stir in Europe by marrying the Duc de Rochefoucauld. Papinta, who had received much valuable instruction and training abroad, made her American debut at the Trocadero, in Chicago, during

the late Columbian World's Fair, since which time she has had several special engagements, of which she is justly proud, among them having been an extended run at the Vaudeville club, in this city, and noteworthy engagements with "The Black Crook" during its Boston run, and with Hoyt's "A Trip to Chinatown," during the last production of that play at the Madison Square theater, New York city. She has just closed an engagement with Hopkins' Trans-Oceanic Vaudeville company, and is at present one of the foremost attractions in the American Roof garden, in New York, where she is presenting her myriad dance, with novel and pleasing mirror effects, designed and arranged by G. von P. Palm. Papinta can justly claim, in addition to her merits as a dancer, varied accomplishments, among them being skill as a banjoist and as a horseback and bicycle rider. She is of pleasing face and lithe, symmetrical form. Her movements are rapid, and yet constantly undulating. Her poses are remarkably graceful, and her dancing is entirely devoid of apparent striving, but, on the contrary, suggests the spontaneous movements of one endowed by nature with a keen appreciation of the rhythmic harmony of sound and motion.

SOUGHT HUSH MONEY
FROM BOTH MEN.JANESVILLE YOUNG WOMAN IN
A BLACKMAIL CASE.

One Bower City Man Dropped Out of Sight and is Now Living in Chicago Rather Than to Pay What Was Claimed—Jefferson Furnishes a Subject.

District Attorney Rider, of Jefferson county, visited Janesville this morning. Ordinarily such a visit would be of little or no consequence. This visit, however, was of great importance to at least one well known Janesville young man, and also to one well-to-do mailster at Jefferson Junction, who is now confined in the Jefferson jail, confronted with a very serious charge made at the instance of a young Bower City woman. Attorney Ryder gathered facts enough in the first two hours to satisfy him that the case was one of blackmail.

Not long ago this same young woman began proceedings against a Janesville youth of good connections, but the case never reached a trial, the young man fearing the odium which attaches to such proceedings, left the city and has since resided abroad. He can now return as the coast is clear of the coast.

Lillie Flett is the name under which the woman now introduces herself. Her case of blackmail against the Janesville boy having failed, she changed her residence to another part of the city, as well as her name. She even endeavored to disguise herself. In this she partly failed. District Attorney Ryder discovered this in the morning interview.

"Do you wear a wig?" inquired the inquisitive attorney.

"No sir, I do not," was her reply. "Why do you ask such questions of me?"

He then called her attention to the fact that part of her hair had been dyed and a few stray locks had been overlooked.

After consulting with local authorities Attorney Ryder made up his mind to return home and put an end to the prosecution, believing that the girl was attempting an old game on the Jefferson man.

"I came down here to investigate the case and interview the girl," he said. "I guess I have learned too much. I think the case will never come up for trial and will set the defendant free when I get back."

AT HYMEN'S ALTAR.
Lawrence-Milligan.

Edward Lawrence and Miss Cora Belle Milligan, both of the city were married last Sunday evening at the home of the bride's father. The bride is the only daughter of William Milligan, of 24 Milwaukee street, while the groom is the youngest son of Mr. and Mrs. L. Lawrence.

An All Day Opening.

Saturday, July 14, Madden Bros. will hold an all-day opening at their place of business, at the Corn Exchange. They have purchased the business formerly owned by James Toole, and having refitted and fixed up the place in a most elaborate style, they invite all their friends and their friends' friends to join them Saturday. One of the most ample lunches ever served in the city will be provided free of charge. Special preparations have been made for the day.

Northern Pacific Engineers Go Back. St. Paul, Minn., July 12.—The only matter of importance in the local strike situation was the return to work of the Northern Pacific engineers to-day. They crowded about the roundhouse and seemed anxious to be enrolled. Freight and passenger cars are running as usual. The Northern Pacific coast train reached Helena to-day safely. No effect was visible as a result of General Master Workman Sovereign's order, the Knights of Labor not being strong in this city.

Wild Cherry Phosphate, a delicious temperance beverage. Directions: One teaspoonful of Wild Cherry is sufficient for an ordinary half pint glass. Sweeten with a teaspoonful or less of sugar. To make a gallon of beverage, use 2 to 2 1-2 ounces of Wild Cherry and a pound of sugar. The most convenient for every day family use is to make a syrup. To a 25 cent bottle of Wild Cherry use 1 1/2 pounds of sugar and 1 pint of water, hot or cold; mix all together until sugar is dissolved; then strain through cotton. One to one-half ounces of this syrup in a glass mixed with cold water makes a delicious and healthy drink, the same as we serve at our fountain every day. **Smith's Pharmacy.**

FRESH HINTS FOR THE FAIR SEX.

SUMMER COSTUMES FOR WOMAN'S WEAR.

The White Pique Gown is in town—A Novel Dinner Gown—A New English Walking Hat—General News of the Modes.

Here is a dinner gown which is a dream of beauty. It is strictly new also, which lends it distinction. It is made of Nile-green moire antique, that material which shows a decidedly wavy design. The only trimming upon the plain skirt is short, narrow tabs of the moire, fastened by small steel buckles. Five of them decorate the skirt near the hem.

The waist is an elaborate jacket of moire which opens to show a shirred vest of pink chiffon, framed by a jabot of cream lace. The jacket falls over the hips in a fluted basque. The

belt is of black velvet and fastens with a green moire tab and tiny steel buckle. Bands of black velvet, caught with the moire tabs and steel buckles, give a touch of novelty to the cuff of the full sleeve.

Dinner and Ballroom Flowers.

Autumn leaves are always in requisition for room and table decoration, whereas the more tender-colored leaves of spring time are left unneeded. A big branch of lime or plantain, maple or tulip tree is wonderfully decorative in a room; and upon a dinner table nothing looks fresher and prettier than an "arrangement" in pale green leaves. Fortunately for ball givers rhododendrons will soon be with us; upon a landing and staircase these gorgeous flowers have a wonderful way of filling up ugly spaces. Trellis works of flowers and greenery are now in the most approved mode of ornamenting a ballroom. Watteau and Louis Seize decorations are likewise much in vogue. Charming to behold are Watteau baskets, tied with pale blue ribbons, suspended in a ballroom from the ceiling, or scattered upon a dinner table.

The White Pique Pelisse Again.

Now is the period when the white pique pelisse flourishes once again, and, by the way, we have borrowed this fashion from our babies. Pique is obtaining among us, but it is understood it is generally pique glorified with black satin ribbons and chiffon vests. Candidly, I confess it is a material that pleases me but little; it is too stiff, yet I think it may be used most successfully to form facings to drill gowns, and it may be relied upon to make very smart little coats to be worn over serge skirts for yachting; these looking their best, perhaps, when adorned with gold buttons. With serge skirts, too, coats of colored linen have an excellent effect. A cornflower-blue serge skirt and a holland coat, although it perhaps suggests the undress costume of a page, may be very successfully worn with a black skirt and a black tie, and crowned by a Panama hat trimmed with black taffeta ribbon.

Pique Here Again.

The white pique gown is in town. It is neat and chic, and when the laundry bill does not have to be considered, it is an ideal summer gown to own. Outing gowns of white pique are worn by young women who scorn the more plebian frock of duck or serge.

These gowns have the skirt plain, with a full gored back. The jacket is

rather conventional in cut, but is trimmed artistically with bands of pique insertion. The revers have the Directorate effect and slope well over the shoulders. To follow directly Dame Fashion's commands a white pique waistcoat should be worn with the pique gown, and a stock of spotless white moire. But the fluffy girl regardless of fashion, will wear her suit of pique a shirt waist of soft dotted Swiss billowy with dainty frills, and she will be a picture. Pique varies in price from 25 cents to 75

cents a yard, as the rib is fine or coarse.

MIND READING.

When the Wife Wills the Husband Unconsciously Obeys.

One Saturday evening the gentleman whom the story names pondered as to just how he could best "fool" his wife, and decided that it would astonish her greatly if he carried home a box of candy, for as he was not personally fond of confectionery he had probably never made her a present in the sugar line before, his gifts generally being of more valuable character. Providing himself with a box of bonbons he started home, says the Boston Journal, and arrived there in company with the candy and a chuckle in advance at the expense of his wife and the state of surprise she would be in on opening the package.

"Here is something for you," he remarked, handing over the bundle. "Yes," she replied without even looking at the box, the character of which was concealed in brown paper. "It was very nice of you to bring me this confectionery from S's. I was wishing all the afternoon that you would do so."

Here is another account of mind acting upon mind. A young lady was extremely anxious to obtain a pair of mousquetaire gloves to match a certain new lavender gown, but could not find her size—5½—in the desired shade. After visiting several shops, she went home to fret because the "lovely new suit" would not be ready for wearing until the new gloves could be sent from the distant city and the dance came off the very next evening! In the meanwhile a certain young man had been racking his brains for a suitable gift for "her" approaching birthday. They had not been engaged very long, and many of her tastes he was only able to guess at.

Strolling aimlessly into a shop on the very afternoon that she was fruitlessly searching for gloves in the rival establishment of the village, a bright idea from nowhere in particular darted through his mind, and he remembered that it was allowable to give gloves even to girls with whom one made trifling bets. It was only when the pert clerk inquired, "What size?" that he began to be bewildered. And then his state of "phaze" did not last long.

Picking up a pair of suedes from a box open on the counter he recklessly ordered them wrapped up, and that very evening the gift, in a velvet-lined box, and accompanied by a big bunch of violets, was in the hands of the young lady.

"Oh," she exclaimed delightedly, the next time he called, "the gloves were exactly what I wanted! But however did you find out that I wore 5½, and that I was having a pale violet frock made for the assembly? Did your sister tell you?"

Said to Cure Cancer.

Some years ago the state department at Washington received through the minister from Ecuador to the United States specimens of a plant known as cundurango, found in the province of Loya, in Ecuador, to which marvelous qualities in curing cancer were ascribed. The physicians in South America experimented on this substance and reported most wonderful cures. Its virtues are said to have been discovered by accident. An Indian had been suffering fearfully for a long time from internal cancer and his wife undertook to relieve him by shortening his life by poison. For this purpose she selected the cundurango, making a decoction of the bark. To her astonishment the first dose appeared to benefit the patient, and by the continuance of this remedy he was completely cured in a short time.

How He "Worked" the Waiter.

The mild-mannered man tried, for a few moments, to transfix a waiter with his glistening eye, but his hypnotizer seemed to be a little out of order, and finally he had to beckon to the menial, who softly approached.

"Excuse me," said the man, "but do you use gas or coal out in the kitchen?"

"Use gas," said the waiter.

"It is paid for by the year, isn't it?"

"Believe it is."

"Don't cost no more whether you burn a whole lot or just a little, eh?"

"Just the same, sah."

"Then since it won't put the house to no extra expense, I wish you would bring me a cup of tea that really is hot. This here ain't hardly got the frost thawed out of it."—Detroit Tribune.

Harmless.

In the time of William the Third, Mr. Tredenhall, a poet, was taken before the earl of Nottingham on suspicion of having treasonable papers. "I am only a poet," protested the poor man, "and these pages are only my roughly sketched play." The earl, however, carefully looked over the papers in question before liberating the poet. Finally he returned the sheets to the delighted author. "I have heard your statement," said the earl, gravely, "and I have read your play. As I can not find the least traces of a plot in either the one or the other, you may go free."—Argonaut.

A WOMAN IN THE CASE.

The Princess Salm-Salm Spoiled the Plot to Rescue Maximilian.

While Mexico was gaining her independence from the French and attempting to oust the adventurer Maximilian some American soldiers appeared upon the scene. At the close of the late civil war about twenty officers of the Federal army who had obtained their discharge left Los Angeles for El Paso, Texas. There they were joined by about forty other officers. They organized into a company of "high privates," calling themselves the "American Legion," and crossed over into Mexico. Their services were accepted by the Mexican government and the complimentary term "Honor" added to the company name. The "American Legion of Honor" did good service and had the unlimited confidence of the commanding general until, at an inopportune moment, the so-called "Princess" Salm-Salm put in an appearance. She wished to cross the lines to see her husband, who was besieged and could not get out. Being an American woman, she began to scheme with the American commandant of the legion, who had charge of the front line. The Mexican general cavalierly referred the whole matter to him, intimating that as both were Americans he knew whether it were best to trust her. He passed the woman through the lines. From that moment the Mexican general lost confidence in the American Legion of Honor and their every movement was narrowly watched. It was owing to this that the scheme to rescue Maximilian when he was condemned to be shot was abandoned.

SIZED THE COURT UP.

Had His Say and Paid His Fine Like a True Soldier.

When General Barnes first commenced practicing law in San Francisco—he was plain Mr. Barnes then—he was engaged in defending a suit involving a large amount of property. He had an uphill fight, for the law, the evidence and the judge were against him. He was making an aggressive fight, however, and for several days was compelled to submit to the taunts of opposing counsel, the lying of witnesses and the rebukes of the judge. He grew tired of it and so did his client.

On the last day of the trial the attorney determined to brook such treatment no longer and fortified himself with a pocketful of his client's gold. The attorney for the plaintiff asked an interested witness a palpably unfair question and Barnes excepted. As he expected, the opposing counsel turned a torrent of abuse upon him and the court administered a stinging rebuff. The general arose and with a blaze of eloquence denounced both judge and attorney as scoundrels and the witnesses as perjurers. The judge was taken so completely by surprise that the general had finished before he could collect his scattered faculties.

"Mr. Barnes, I adjudge you guilty of contempt of court," he roared when he finally found his voice, "and you will pay a fine of \$250."

"That is about the price I thought this court would fix upon its dignity and integrity, so I came prepared," coolly remarked the general as he counted out the gold.

CHATHAM ISLAND.

A Place Where One Day in Every Week Is Skipped Regularly.

"There is a small island in the South Pacific," said John L. Davis, a veteran sea captain, "where there only appear to be six days in the week. This extraordinary phenomenon is brought about by the location of the island. Travelers around the world are acquainted with the fact that time is lost while traveling east and gained while traveling west, the difference of time in a trans-Atlantic journey alone being about four hours. I had to run into Chatham island once when disabled, and was amused to see the way in which the people accepted their fate in regard to the jumping of time. This little island is just on the line of demarcation between times and dates. In order to keep right with the rest of the world it is necessary to skip from noon Sunday to noon Monday every week in the year, and hence the joke that it is possible to spend a whole day at dinner without eating an average meal. The island is so near the Antarctic region that days and nights are altogether mixed up from the idea of an ordinary individual, but this plan of jumping the afternoon of one day and the morning of the next so as to keep in line with the almanac is something so ridiculous that none but a seafaring man can appreciate it or understand the necessity."

Apparently All Hump.

The cyclist with an ambition to be mistaken for a racing man rode up to a wayside watering trough, steadied himself by putting one foot on it, and called out to the farmer on the other side of the fence.

"Can you tell me how far it is to the next town," he asked.

"I can't tell which way you're traveling," replied the farmer, "unless you raise your head so's I can see where it's fastened on. I'm a leetle near-sighted."

A Beautiful Faith.

During the battle of Waterloo there was a frightful panic in Brussels. It was reported that the allies were beaten, and people were flying in all directions. The duke of Wellington's cook went on quietly with his duties. He was begged to save himself, but replied: "I have served my master while he fought a hundred battles, and he never yet failed to come to his dinner."

MEN AND WOMEN.

Judic Chollet Shows That They Are About the Same, After All.

If everybody reads as he runs in these rapid times, the general public must derive a great deal of quiet amusement out of the propensity of a number of newspaper writers—to regard men and women as entire opposites in all respects. Not satisfied with refusing to admit that the two sexes have any ideas, ambitions or tastes in common, such a writer delights to contrast them in the very minutiae of daily life and prove them so far asunder by nature that one wonders that they are classed as belonging to the same species. One seeker after truth has discovered that in washing the face a man always rubs up, while a woman rubs down; a second announces that a woman shakes a lighted match in order to extinguish it, while a man blows it out; a keen analyst has as-

TEA JACKET.

certained that a woman is proud to appear in a new hat, while a man is ashamed to wear one, and another person assures us that a woman always walks over a muddy crossing on her heels, while a man goes on his toes, and so on ad infinitum. This is mildly funny, or was before it became monotonous. The matter is too trifling to merit the notice of a contradiction. If it were worth the observer's attention, he might, by looking about him, see a man crossing a muddy spot on his heels and a woman blowing out a match. If he hid behind the door, he might even see her scratch one on her shoe sole, and if he learned mind reading he might find that when she tries to hammer a nail and strikes her thumb instead she thinks just about the same thing that a man says in similar circumstances. Men and women are, on the whole, very much alike, and the comparison of them as utterly opposite types is mere superficiality.

The tea jacket shown in the sketch is of light tan colored muslin with white embroidered dots. It is trimmed with coffee colored lace and insertion, mingled with pink ribbon. The garment is also lined throughout with pink. The front, which has an immense square collar, opens to the waist, showing a vest trimmed with horizontal bands of insertion. The waist is encircled by a ribbon belt fastened with a bow, while the sleeves are very full and loose.

JUDIC CHOLLET.

JUDIC CHOLLET ON FOOD.

She Speaks a Good Word For the Robust Onion.

Mr. Walter Besant, who has a great deal to say upon all subjects in these days, is particularly prompt in giving his opinions and advice where women are concerned. Not weariest in the well doing of finally settling the question as to the boundaries of their social, intellectual and political spheres, he is considerate enough to take thought for them in hygienic and toilet matters, which is certainly very kind of him when his attention is demanded by so many affairs of national and even worldwide importance. During his visit to America he was particularly struck by our fondness for the onion. It may be inferred that he was equally struck by our beauty, since on his return he hastened to advise, through the medium of the public print, every plain English girl to eat

WHITE SERGE GOWN.

onions, alleging that to them are owing the health and beauty of the American women. Mr. Besant must have gone to some curious and little known parts of America, since in the places he visited "some of the best people, particularly in literary and academic circles, are not at home to their most intimate friends on Sunday. They devote that day to the consumption of the leek."

It is to be hoped that every well bred American woman is cosmopolitan enough to be able to eat any kind of food that is respectably cooked and that does not constitutionally disagree with her, whether it be onions, caviare, cabbage, pumpnickel, frogs, olive oil or garlic. There is no surer indication of the provincial mind than baseness prejudice in the matter of eating. It is rather surprising, however, to see the onion elevated to the position of our national dish, for it has always seemed to belong more especially to Spain. However, it is an excellent vegetable, whether cooked or raw, and eminently wholesome. A sketch is given of a Redfern gown of white serge. The revers and sash are of pale blue silk, and blue anchors are embroidered in silk on the yoke and sash ends.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historical value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

Half Rates to Toronto.

On account of the convention of the Baptist Young People's Union of America, the Northwestern Line will sell excursion tickets to Toronto, Ont., and return at rate of one fare for the round trip. Tickets on sale July 17 and 18—good for return passage until August 7, 1894. For tickets and full information apply to Agents Chicago & Northwestern R'y.

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows: "Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and they cure the system wonderfully. We say to all, try these remedies."

IT'S A MILLSTONE

About a young man's neck to be a sufferer from nervous exhaustion, nervous debility, impaired memory, low spirits, irritable temper, and the thousand and one derangements of mind and body that result from unnatural, pernicious habits, contracted through ignorance.

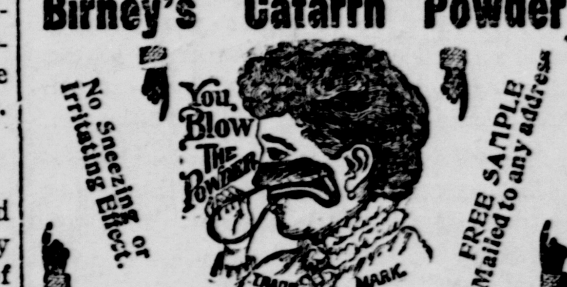

Such habits result in loss of manly power, and sometimes paralysis, and even dread insanity.

To reach, reclaim and restore such unfortunate to health and happiness, is the aim of the publishers of a book written in plain but chaste language, on the nature, symptoms and curability, by home treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of ten cents in stamps, for postage. Address, World's Dispensary Medical Association, 603 Main St., Buffalo, N. Y.

Catarrh AND COLD IN THE HEAD

relieved instantly by one application of

Birney's Catarrh Powder.

REV. FATHER CLARKE, S.O.C. to the Rt. Rev. Bishop of Columbus, Ohio, writes: "I cannot say enough for your Powder. It has cured me of an aggravated attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered examples are quite enthusiastic over it. The good sisters speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering."

M. E. FREEMAN, Custodian U. S. Appraiser's Store, Chicago, writes:

"Catarrh—has almost entirely defied for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held in motion from my ear. I look upon it as a positive cure for deafness and have recommended it to many of my friends and can say I have never heard of a case where it has failed to relieve."

NEW SPICY BITS OF
WIT AND HUMOR.SOME CURRENT JOKES AND
INNOCENT LEVITIES.

Yelling at the Top of His Voice—So the Poor Indian Tackles Mince Pie—A Serenader in Hard Luck—Some Sharp Points.

Little Dot—I wish my doll didn't have such red cheeks and such a round face.

Mamma—She is very pretty.

Little Dot—Yes, but when I play she is awful sick an' mos' dyin', she always looks so fat an' healthy I can't feel worried over her a bit.

Too Much for Him.

Captain—Old Raw-Dog looks ugly to-day; it may mean an uprising.

Lieutenant—Quite likely. The new missionary's wife gave him one of her famous New England mince pies yesterday and the old cuss ate it."

A Lesson in Manners.

Little Boy—How long have you had that doll?

Little Miss—This is a girl doll, an' you oughtn't to ask her age.

Information Cheerfully Given.

Student—Working at your essay?

Roommate—Yes. Say! what do you do when you can't think of a word you want?

Student—I ask you.

Mother's Darling.

Suburban Boy—Mamma asked me what was my favorite flower, an' w'en I told her "golden rod" she kissed me an' said I was poetic. Wot does that mean?

Little Girl—I don't know. Why do you like the golden rod?

Suburban Boy—Cause it grows without any bother.

Willing to Learn.

Little Johnny—I think Tommy Dodd wouldn't have so many accidents on his bicycle if he'd go slow instead—

Mother—Say "go slowly."

Little Johnny—Yes'm—if he'd go slowly instead of fastly.

A Little Skeptic.

Little Boy—Did you ever see a comet?

Little Girl—No.

"Neither did I. I don't believe there is comets."

"You ought to be ashamed to talk that way. You'll be sayin' you don't believe in ghosts next."

He Hit It.

Visiting Clergyman (anxious to compliment his host at a Sunday school celebration)—My dear children, to what one man are we most indebted for the great crowd of happy faces seen here to-day?

Bright Boy—Adam.

Getting There by Degrees.

Little Boy—Papa, won't you get me a nice round stick to hoop with?

Papa—Of course.

"And won't you buy me a hoop to roll?"

"Y-e-s."

"That will be lovely. Then you will have to buy me a bicycles so that I can keep up with the hoop."

Always Eloquent.

Uncle—Is your little dog intelligent?

Small Nephew—Well, he hasn't got so very much sense in his head, but his tail seems to know a lot.

A Serenade.

Love (singing [?])—Come where my love lies dre-a-m-ing, etc.

Old Man—If you're addressin' my darter Hannah you'll find her dreamin' down to the dance with Si Perkins. Come round 'bout half-past one. She an' Si orter git back by that time.

A Restful Line.

Young Lady—I hate railway traveling, as a rule, but when we were south I found a perfectly lovely little railroad. It was just too sweet.

Caller—In what way?

Young Lady—It was so quiet and restful, and they never had any time-tables to bother with.

Had It Down Fine.

Teacher—Define "unsophisticated."

The Bright Boy—"Unsophisticated" means a boy wot thinks the circus season raises the price of lemons.—Street & Smith's Good News.

In a Bad Way.

Teacher—Some scientists now believe that the lights recently seen on Mars are signals from the people of that planet to the inhabitants of Earth. What do you think of that?

Bright Boy (who lives on the sea coast)—Maybe they've lost their rudder.

Pot and Kettle.

Teacher—What is your name?

Little Boy (from England)—Enry Hadams.

Little Girl (from New York)—He, he! Hear him misplace his h's.

Teacher—And what is your name?

Little Girl—Idar Warnah.

The Bicycle Era.

Father (a few years hence)—Why do you take your bicycle when you are going such a short distance? Why don't you walk?

Daughter (modestly)—Walk? Mercy, no! I don't want to be so conspicuous.

A Wave of Reform.

Little Johnny—I won't be kept after school for whispering to Tommy Dodd any more.

Mother—I am glad of that.

"Yes'm. Tommy sat behind me and I had to turn my head to whisper to him, and the teacher always saw me."

"You don't do it any more, I hope."

"None. I've got a seat behind Tommy, and now he'll have to turn his head."

Moral Suasion.

Old Gentleman—Do you mean to say that your teachers never thrash you?

Little Boy—Never. We have moral suasion at our school.

"What's that?"

"Oh, we get kep' in, and stood up in corners, and locked out, and locked in, and made to write one word a thousand times, and scowled at, and jawed at, and that's all."

Foregoing the Season.

Mother—What? Been in swimming?

And this time of the year? Mercy! When I went out to-day I wore my winter coat.

Little Johnny (with teeth chattering)—Yes'm, it was so—so—cold we ha-had to jump into the wa-water to keep warm.

Fully Comprehended.

Teacher—As the twig is bent the tree is inclined. Do you understand that?

Boy—Yes'm. W'en bicycle boys grow up they'll walk with a stoop.

An Important Post.

Store Boy—Can't get off to-day. We're takin' an inventory of stock. Awful busy.

Chum—Wot good are you in takin' inventories?

Store Boy—Good? I'm more important than the head bookkeeper. I wash the fly specks off of last year's goods.

His Firm Resolve.

Valetine McClinchy (derisively)—Verbena McNulty, during the first periods of our acquaintance, I had no objections to the presence of a third party during our interviews, but now that mutual admiration has deepened into love, and love into betrothal, this system, at once insulting and suspicious to the disinterestness of my motives, must cease at once or I will be over between us forever.—Truth.

Tommy's Logic.

"I don't see what's the use of my being vaccinated again," said Tommy, baring his arm reluctantly for the doctor.

"The human body changes every seven years, Tommy," replied his mother. "You are eleven years old now. You were in your fourth year when you were vaccinated first, and it has run out."

"Well, I was baptized when I was a baby. Has that run out, too?"
